ISPyB at MAX IV

Alberto Nardella
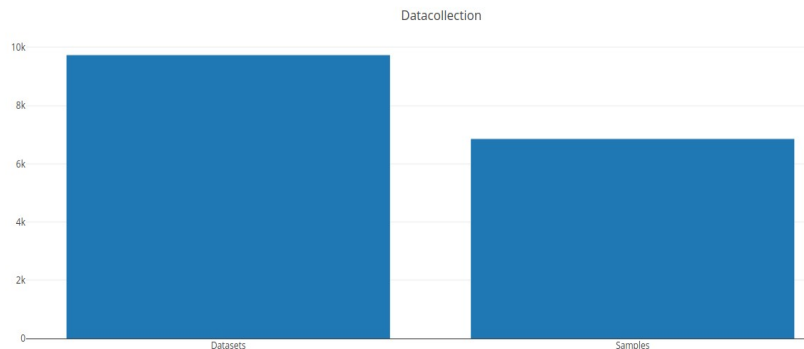

Alberto.Nardella@maxiv.lu.se

MAXIV

Status

- Current Version installed 5.18.2
- EXI started to be used for some special users
- Some shipments rules implemented in EXI and ISPyB
- Added new experiment parameters for the remote energy
- Energy scan and XFE spectrum fixed

MAXIV

Status II

- A lot of remote experiments due to COVID. No mayor issues with ISPyB

- DUO synchronization fixed and working as expected.

Future

- Merge request for MAXIV changes

- ICEBear – ISPyB synchronization at MAXIV

- New experiment parameters to be added to the datacollection.

- Some MAXIV customizations to avoid to show ESRF workflows not used at MAXIV

- Old ISPyB frontend to be retired next Sept-Oct 2020 and EXI officially on production for all the users.

Thank you very much
