- ➢ **Still using ISPyB GUI in production (Version 5.13.1)**

- ➢ **Discussions that were ongoing internally at SOLEIL ended up by the decision to switch directly to EXI2**

- ➢ **Discussions with SOLEIL direction allowed us to substract the work for EXI2 installation in production : to be done in July**

- ➢ **We are going to set up an open source Single Sign-On – SSO (KeyCloak):**
  - ➢ **EXI / ISPyB**
  - ➢ **The User Office Tools (SUN set)**
  - ➢ **…**

- ➢ **Used for MX and SAXS (a priori no needs for other techniques)**

Issue #52 : **Add information about HPLC column in the column "Run" of the HPLC results panel**

Add three new parameters, that could fit in the column Run of both buffer and sample lines, just below the "#": "Column name" (ex: Biosec300) "Column Volume" (ex : 5 ml) "Elution Flux" (ex: 0.3 ml/min)

Issue #53 : **Adding the UV absorption profile in addition to the already present Rg/I0/Mass profiles of an HPLC run**
